INDUSTRIAL TUMBLE BLAST CABINET

Model MM750TS

.MODELS: MM750TS; MM1000TS; MM1250TS; MM1500TS

These are our high capacity tumble blast suction based blast cabinets. Ideal for dealing with high volumes of small to medium sized components. We offer a myriad of permutations and combinations on these systems and as standard offer variable blast cycle timers, drum rotation speed variation as well as blast intensity variation together with easily variable stand off distances;

Standard Features & Options

- Automatic reverse pulse cartridge dust collector with 99.9% efficiency.
- Large access door each side.
- Heavy duty perforated plate work table.
- Safety interlocks
- Excellent viewing window with sacrificial screen.
- Dust proof twin fluorescent lights with protective screen.
- Blast pressure regulator and air filter
- Large particle and debris sieve in hopper to prevent blockages.
- PLC operation.
- Antistatic media hose.
- Multiple blasting gun options c/w tungsten carbide nozzle.
- Full internal rubber lining
- Fully adjustable blast gun holder(s)
- Hexagonal rotary drum to facilitate component rotation
- Fully protected drum drive rollers and bearings

Optional Equipment: Variable dimension rotary basket, Multi Blast Guns, Tungsten Carbide & Boron Carbide Nozzles, Cyclone Media Separator.

Work chamber

MM750TS	750mm w x 750mm d x 750mm h .
MM1000TS	1000mm w x 1000mm d x 1000mm h.
MM1250TS	1250mm w x 1100mm d x 1100mm h
MM1500TS	1500mm w x 1100mm d x 1100mm h

POWER 2KW, 25 TO 150 CFM at 100 PSI.

FINISH

H.D.Paint to

RAL 7032

All cabinets comply to British and European safety standards and come complete with operational and maintenance manual. Full spares and service support with all products, Installation and Training Available upon request.
